

Frequency	Which tasks do you find most difficult when learning?	When identifying chords what is most challenging?	Do you feel the need for a learning component at all?	Where do you usually practice most theory or notes?	What device do you primarily use to practice notes?	Which input method would you prefer for notes entry?	How important is it for you to receive immediate feedback?	Would you like to have visual aids (e.g., colors, high contrast)?	Which features would enhance your learning experience?	What is your current level of sight-reading?	What motivates you to keep learning?	How long would you practice for in a day?	Questions/Comments/Other	How important is support?	Would you rather difficult?	Column 16
Recognizing accidentals (sharps and flats)	Identifying the inversion of the chord	I'm indifferent	Other (please specify)	Tablet	MDI keyboard	Somewhat important	Yes	Display of hand placement (left or right)	Progress 1	Intermediate (I can read and play the notes but not)						
Identifying notes on the bass staff	Identifying the inversion of the chord	Yes, it helps me learn faster.	At home	Tablet	Both	Very important	Yes			Intermediate (I can read and play the notes but not)						
Ledger lines (notes above or below the staff)	Identifying the letter name of the chord (What 2 not)	Yes, it helps me learn faster.	At home		Both	Very important	Yes			Beginner (I'm just learning to sight-read for piano)						
Ledger lines (notes above or below the staff)	Identifying quality of chords	No, it adds too much pressure.	On the go (e.g., while commuting, during breaks)	Mobile device	Clicking on screen	Somewhat important	Yes	Progress tracking (e.g., scores, badges)	Ability to +	Beginner (I'm just learning to sight-read for piano)	Actually learning and becoming more capable	30 minutes		Very important	Gradually improve at you	
Recognizing accidentals (sharps and flats)	Identifying the inversion of the chord	Yes, it helps me learn faster.	At home	PC	MDI keyboard	Very important	Yes	Progress tracking (e.g., scores, badges)	Ability to +	Intermediate (I can read and play the notes but not)	Immediate feedback	10 minutes		Not important	Rapidly challenge yourself	
Recognizing accidentals (sharps and flats)	Identifying the letter name of the chord (What 2 not)	I'm indifferent	At home	Mobile device	Clicking on screen	Somewhat important	Yes			Intermediate (I can read and play the notes but not)				Very important	Gradually improve at you	
Recognizing accidentals (sharps and flats)	Identifying quality of chords	No, it adds too much pressure.	In a music classroom	MDI keyboard connected to a device	Both	Very important	Yes	Display of hand placement (left or right)	Progress 1	Intermediate (I can read and play the notes but not)	Rewards and progress tracking	5 minutes		Somewhat important	Gradually improve at you	
Recognizing accidentals (sharps and flats)	Identifying quality of chords	Yes, it helps me learn faster.	Other (please specify)	MDI keyboard connected to a device	Both	Very important	Yes	Display of hand placement (left or right)	Progress 1	Advanced (I'm comfortable sight-reading at a fast)	Clear instructions and explanations	1 hour or more		Somewhat important	Rapidly challenge yourself
